The guidelines describe physical characteristics for these key components, for the condition selected based upon age. Inspection Notes reflect observations from the appraiser regarding the loss vehicle's condition.

CCC makes dollar adjustments that reflect the impact the reported condition has on the value of the loss vehicle as compared to Good condition. These dollar adjustments are based upon interviews with dealerships across the United States.

GRANGE INSURANCE ASSOCIATION also identifies the after factory options and upkeep dollars invested into the loss vehicle that were brought to its attention. CCC makes dollar adjustments that reflect the impact, if any, these items have on the value of the vehicle. The total of these adjustments is shown in the Valuation Summary as Refurbishments.
